

Star Light, Star Bright

Lemhi County, Idaho, is a great place for stargazing. Because Lemhi County is far away from the lights of a big city, you can see more stars in the night sky.

Read these prayer requests shared by Pastor Mike Palmer. Then, look at the stars. Decide which stars have the words needed to fill in the blanks. Write the correct word in each blank.

The next time you see a star in the night sky, remember to pray for people in Lemhi County.
