

“Thumb-body” IS PRAYING

The Bible says the prayer of a godly person is powerful. Prayer makes things happen. Each year, Southern Baptist churches have a special week to pray for thousands of missionaries serving in the United States and Canada. This time of prayer is called the Week of Prayer for North American Missions.

Many people in North America do not know the truth about Jesus. There are many cities and towns in North America that have no Southern Baptist churches. You can support missionaries and their families by praying. God is at work through your prayers.

Pray for these requests. Then put your thumb in washable ink. Put your thumbprint beside each request to show that “thumb-body” is praying for missionaries in North America.

Pray for missionaries in North America to have the supplies they need to reach people for Christ.

Pray for God to give health, rest, and strength to missionaries and their families.

Pray for God to help missionaries share Jesus with people in North America.

Pray for missionary families in North America to have Christian friends.

Pray for new churches to start in North America.

Pray for people in North America to trust Jesus as their Savior and Lord.

Pray for missionaries to have opportunities to share Jesus with college students.
