

## **Teaching helps for April 2016**

### **Information cards about Argentina**

- Use the Internet to find information about Argentina: population, location, climate, the city of Buenos Aires, Patagonia, recent news, and other information.
- Print the information on 3-by-5 cards.
- At the meeting, give everyone at least one card. Ask them to study this information for prayer ideas for the Stantons and the Baggetts. Discuss the information to understand where these missionaries live and serve.
- Pray together.

### **Letters from Laura Baggett and Kristi Stanton**

Ask two women to use the information on pages 86–87 of Missions Plan Book 2015–2016 to prepare two letters. One letter will be about Laura's information. The other letter will be about Kristi's information. The letters should tell about what they do, their families, and their prayer requests.

Prepare a skit. Two women have received letters from Laura Baggett and Kristi Stanton. They meet each other and talk with each other about the information in their “missionary letters.” Then they will lead the group in prayer for the requests shared by Laura and Kristi.

### **Cooperative Program facts**

Get information about the Cooperative Program from your local Baptist association and state Baptist convention. Help members understand how the Cooperative Program works. Help them recognize how important it is to give through the Cooperative Program. Consider asking your pastor or associational director of missions to share information and encouragement about giving through the Cooperative Program.
