

Learn About God's Creation

This month, preschoolers are learning about God's Creation. As you go about your day, point out things that God created. Help your preschooler say sentence prayers thanking God for what you see, such as "Thank You, God, for these colorful rocks," or "Thank You, God, for making flowers that smell pretty."

Visit a Plant Nursery

Take a family trip to a local nursery to look at the beautiful plants that were created by God. Pick out a plant or flower to purchase, take home, and care for. Allow your preschooler to do as much of the work as possible.

Set out crayons and paper for your child to draw one of their favorite plants from the nursery.

Open the Bible and read: God saw everything that he made, and it was very good (see Gen. 1:31).
